REVANSA HELSA KUSWANA

+62 822-8015-2064 | revansakuswana@gmail.com | revansakuswana.site | LinkedIn | GitHub | Lampung, ID

I am an Informatics Engineering graduate from the Institute of Technology Sumatra and a passionate Fullstack Developer with hands-on experience in building internal enterprise systems. Currently working at PT. Great Giant Foods, I develop web-based solutions for Quality Control and operational monitoring, including analytics dashboards and reporting systems to support data-driven decision-making. I have a strong background in RESTful API development, database management, and system deployment, with prior experience from apprenticeships at Kerjago and Bangkit Academy (led by Google, Tokopedia, Gojek, and Traveloka). Skilled in PHP, Laravel, MySQL, as well as Node.js, Express.js, and cloud deployment on GCP, I bring a collaborative mindset and strong problem-solving skills to deliver impactful and scalable solutions.

EXPERIENCE

PT. GREAT GIANT FOODS — Central Lampung, ID

Fullstack Developer — Oct 2025 – Present

- Developed One Stop Information System for Pineapple Quality Control, focusing on monitoring and controlling plantation quality through integrated information processing and cross-team communication to ensure high-quality pineapple production.
- Built data analysis and reporting features, including dashboards with charts to support quality evaluation, trend monitoring, and management decision-making.
- Implemented the system using PHP, Laravel, Bootstrap, and MySQL, ensuring reliability, scalability, and ease of use for internal stakeholders.
- Use Git and GitHub for code management and collaboration.

PT. INDONESIA TRANS NETWORK — Bandar Lampung, ID

Fullstack Developer - Project Based — Jul 2025 – Aug 2025

- Created an internal website for company payroll management.
- Used React JS, Tailwind CSS, and Shadcn to build an efficient and responsive UI.
- Designing and developing RESTful API using Node.js and AdonisJS Framework.
- Managed MySQL database to store employee and salary master data.
- Use Git and GitHub for code management and collaboration.

KERJAGO — Remote

Software Engineer - Apprenticeship — Nov 2023 – Jan 2024

- Implementing designs created by the UI/UX team using React JS, Tailwind CSS, and Material UI.
- Designing and developing RESTful API using Node.js and Express.js.
- Designing and managing MySQL database structures to store job and user data.
- Using Apache JMeter to perform load testing on API and databases.
- Use Git and GitHub for code management and collaboration.
- Working in a team using JIRA for task management.

BANGKIT ACADEMY LED BY GOOGLE, TOKOPEDIA, GOJEK & TRAVELOKA — Remote

Cloud Computing Learning Path (Distinction Graduate) - Independent Study (MSIB) — Aug 2023 – Jan 2024

- Responsible for completing various courses in dicoding, coursera, and google cloud skills boost.
- Participated in self-directed learning through asynchronous courses on Dicoding Academy, Coursera, and Google Cloud Skills Boost.
- Sought advice from experts and mentors to gain academic and non-academic insights throughout the learning journey.
- Completed the Cloud Computing Learning Path, successfully passing exams and assessments for each module.
- Contributed to a final team project in groups of 6 members, selecting themes approved by mentors for implementation.
- Developed a backend using Express.js. for a web application and successfully deployed it on the Google Cloud Platform (GCP).
- Completed the company capstone project with a team consisting of 4 Machine Learning and 2 Cloud Computing.

PT EVOLUSI TEKNOLOGI SOLUSI — West Jakarta, ID

Frontend Web Developer - Internship — Jun 2023 – Aug 2023

- Implement designs created by the UI/UX team using HTML, CSS, and JavaScript.
- Use Git and GitHub for code management and collaboration.
- Identify and fix bugs found during development and perform functionality testing.

- Use tools such as Lighthouse to measure website performance.

SENIOR HIGH SCHOOL Bandar Lampung, ID
Student Council - Science and Technology Coordinator for the 2018/2019 period Oct 2018 – Oct 2019

- Create banner and poster designs for various events.
- Plan and create content for social media (Instagram and YouTube).
- Manage a youtube account with 586 subscribers that has been watched 10,106 times.

EDUCATION

INSTITUT TEKNOLOGI SUMATERA South Lampung, ID
Bachelor of Informatics Engineering Graduate April 2025
Cumulative GPA: 3.32/4.0
Relevant Coursework: Programming Algorithms, Data Structures, Human and Computer Interaction, Object-Oriented Programming, Database Management System, Mobile Application Development; Embedded System, Web Programming.

PROJECTS

Scrypto Landing Page August 2025

- Create a landing page for Scrypto (crypto token) with consume an API for data and Charts real time.

Tech Stack: **React.js, TypeScript, Shadcn, and Tailwind CSS.**

Automatic Certificate System July 2025

- Create an automated web system that generates psychological test certificates for driving licenses.

Tech Stack: **React.js, TypeScript, Express.js, MySQL, Shadcn, and Tailwind CSS.**

Oxen Studio Landing Page April 2025

- Create a landing page for Oxen Studio crypto project based on client needs.

Tech Stack: **Next.js, TypeScript, RadixUI, and Tailwind CSS.**

Website-Based Job Vacancy Platform

- Create a job vacancy website platform by collecting vacancy data from 3 famous websites using web scraping techniques.

Tech Stack: **React.js, Express.js, MySQL, Puppeteer, Cron Jobs, Material UI, and Tailwind CSS.**

Smart Greenhouse and Monitoring System May 2023

- Create an IoT-based smart greenhouse and monitoring system device on mustard plant with an esp32 microcontroller and 3 sensors and 3 actuators.

Tech Stack: **Arduino IDE, C**.

Money Laundry May 2023

- Designed the UI/UX of the Laundry Mobile Application Apps.

Tech Stack: **Figma**.

Airan Raya Hospital Mobile Applications Des 2022

- Designed the UI/UX of the Airan Raya Hospital Mobile Applications Apps.

Tech Stack: **Figma**.

Bounce Back Games May 2022

- Created Bounce Back games by implementing Object Oriented Programming (OOP).

Tech Stack: **Python**.

LICENSES & CERTIFICATIONS

The Bits and Bytes of Computer Networking	Aug 2023
Pengenalan ke Logika Pemrograman (Programming Logic 101)	Aug 2023
Memulai Dasar Pemrograman untuk Menjadi Pengembang Software	Aug 2023
Google Cloud Computing Foundations: Networking & Security in Google Cloud	Aug 2023
Google Cloud Computing Foundations: Infrastructure in Google Cloud	Aug 2023
Google Cloud Computing Foundations: Infrastructure in Google Cloud	Aug 2023
Perform Foundational Data, ML, and AI Task in Google Cloud	Sep 2023
Google Cloud Computing Foundations: Data, ML, and AI in Google Cloud	Sep 2023
Create and Manage Cloud Resources	Sep 2023
Build and Secure Networks in Google Cloud	Sep 2023
Belajar Dasar Pemrograman Web	Sep 2023
Belajar Dasar Pemrograman JavaScript	Sep 2023
Belajar Dasar Manajemen Proyek	Sep 2023

System Administration and IT Infrastructure Services	Sep 2023
Menjadi Google Cloud Engineer	Oct 2023
Belajar Membuat Aplikasi Back-End untuk Pemula dengan Google Cloud	Oct 2023
Intermediate 4 Level - LBPP Lia	Aug 2019

TECHNICAL SKILLS

Tech: HTML, CSS, Tailwind CSS, JavaScript, TypeScript, Reactjs, Next.js, Node.js, Express.js, Adonis.js, Context, Zustand, Python, MySQL, MongoDB, Apache JMeter, Material UI, RadixUI, Shadcn, Figma.
Proficient in HTML, CSS, Tailwind CSS, JavaScript, TypeScript**,** Reactjs, Node.js, Express.js, Adonis.js, Context, Zustand, MySQL, MongoDB, Material UI, Shadcn, Figma.
Others: Word, Excel, Photoshop, Premiere, Canva.
